

COUDiX - Universal flexible sleeve - PVC

Single piece, all PVC made. Resistant to hot temperature of household appliances and to clearing liquids. It connects the siphon of the sanitary to the waste. Flexible, it can be bent beyond 180°. By cutting off one or both the sockets with a cutter it can be used as M/F or M/M push-fit sleeve or solvent weld (use PVC glue). Shrinkable, suitable for maintenance and expansion joint. Patented.
