

M9.50.PX – M9.50.WX

Reference	Mounting	Power supply	Sensor Input	Output
M9.50.P1	Panel	12 - 24 VCC	Flow (Frequency)	2*(S.S.R.) \$ 2*(mech. relay)
M9.50.W1	Wall	12 - 24 VCC	Flow (Frequency)	2*(S.S.R.) \$ 2*(mech. relay)
M9.50.W2	Wall	110 - 230 VCA	Flow (Frequency)	2*(S.S.R.) \$ 2*(mech. relay)

M9.50.PX – M9.50.WX

APPLICATIONS

- Batch processes
- Chemical additions
- Filling processes
- Blending applications
- Dosing system
- Bottling processes

MAIN FEATURES

- Wide full graphic display
- Multicolor backlight visualization
- Help on board
- External start, stop and resume
- Intuitive batch volumes setting
- Two stage shutdown control
- Overrun compensation and alarm
- Missing signal alarm
- USB port for software upgrading
